CONTAINS: EGG, WHEAT, MILK, SOY

HANDLING SUGGESTIONS	PREP & COOKING SUGGESTIONS	BENEFITS
All products should be kept frozen. Products may be thawed in the refrigerator to speed preparation time. Never thaw products at room temperature. Reheating cooked product or adding reheated product to fresh product is not recommended.	Place unopened bag of product in a large pot of boiling water. Lower heat and simmer until product reaches internal temperature of 165ºF, approximately 40 - 50 minutes from frozen or 20 - 25 minutes from thawed state. Internal temperature can be checked by removing bag from water and folding it, unopened, around a stemmed thermometer. Transfer to a serving container and hold at 150ºF –160ºF until served.	Ready to cook (RTC), simply heat and serve. Consistent every time. The pasta is cooked al dente to provide a long-lasting, firm bite.
